# Why choose a Regency® Wood Stove or Fireplace

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honored with awards for exceptional aesthetics and performance. It is known as the premium brand in the industry.

There are so many reasons to choose a Regency, I would like to share a few with you.

## Regency Quality

The Regency name means quality in every way. I am supported by an exceptional team, state of the art research and a world class manufacturing facility. We have carefully selected a dealer network that is committed to your satisfaction.

## Exceptional Fire

The glowing embers... the snap of the wood as it catches fire... the curl of the flames... revisit the charms of a wood fire. Take a look at Regency - a beautiful wood fire surrounded by a classically designed fireplace, as practical as it is aesthetically pleasing.

## Custom Elegance

We have carefully researched current trends to develop a line of stylish options which allow you to uniquely tailor a Regency Wood Stove or Fireplace to your home. Choose from a range of exquisite options for a very special, custom look of your own.

## Environmentally Friendly

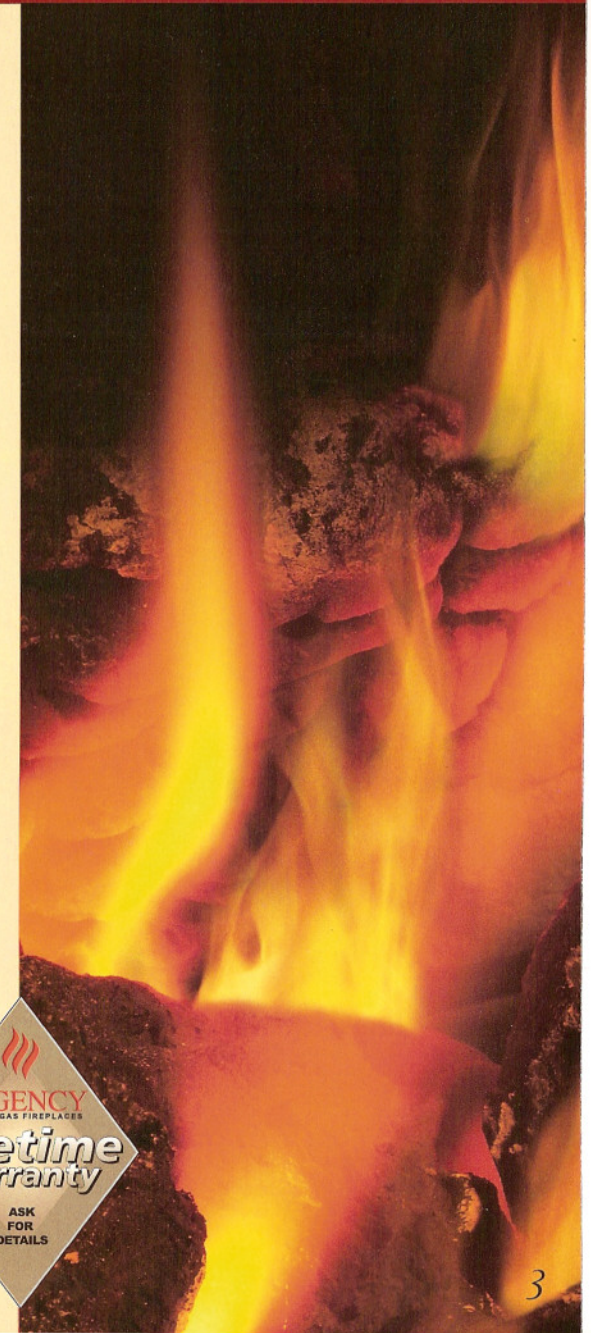

All Regency Wood Stoves and Fireplaces have been certified by the Environmental Protection Agency. Regency engineers have carefully designed the firebox to create airflow around the wood so that it burns completely, resulting in very little ash and next to no polluting smoke into our environment.

## My Guarantee

I am so confident in the quality workmanship, the finest materials, and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. We know that you will be as proud of your Regency Wood Stove or Insert as we are—I guarantee it.

# Classic Wood Stove

F1100, F2400, F3100

## Versatile Design

The legendary Regency® Classic Wood Stove is the product of high technology engineering and classical design. Regency's versatile modular base gives you the option to choose between a distinctive pedestal model or one of three elegant leg styles in cast iron, gold plated cast iron or brushed nickel. Each model is available with a 24 karat gold plated, black, black with nickel accent or black with gold accent cast iron door.

## Wide Fire View

All Regency Classic Wood Stoves offer wide view doors so you can watch a roaring fire for up to 10 hours with just one load of wood.

## High Heat Efficiency

The Regency Classic Wood Stove series comes in three sizes to heat a single room or an entire home. The firebox is specially designed to maximize heat output and generate as much as 80,000 BTU of toasty warmth.

## Clean Burn

The improved efficiency of up to 77% means any room can be heated quickly. All Regency Classic models exceed the DEQ Washington Phase II Clean Air Standard of 4.5 grams/hr or less. You can burn your Regency anytime, because it has been designed for clean burning.

## STANDARD FEATURES

- ◆ EPA Certified
- ◆ Mobile home and alcove approved
- ◆ Single rod draft control
- ◆ Brick-lined firebox
- ◆ AirWash system

## OPTIONAL FEATURES

- ◆ Cast iron door in 24k gold, black, gold accent or nickel accent
- ◆ Cast iron legs in 24k gold, black or brushed nickel
- ◆ Pedestal base
- ◆ Bottom heat shield (when using legs)
- ◆ Ash drawer
- ◆ Two speed blower
- ◆ Convector airmate
- ◆ Outside air kit
- ◆ Nickel hinge caps & handles
- ◆ Screen door

F2400 with nickel accent door, bottom heat shield and black legs.

Supreme Convenience

# Classic Step Top Wood Stove

S2400

## A Step Above

The Regency® Classic Step Top Wood Stove features traditional step top styling that provides a generous cooking surface to use during power outages. Or use it every day as a convenient cook top to prepare a light meal while enjoying the generous heat from the stove.

## Space Saving Design

Special design makes it possible for the Regency Classic Step Top Wood Stove to be placed close to the corner of the wall. This makes it ideal for a smaller room or for installation in tight alcoves and mobile homes.

## Powerful Regency Blower

All Regency wood products produce high efficiency heat. The optional two speed blower helps deliver warmth to the far reaches of your room. Maximize Regency's high efficiency heat with the Regency blower.

## Legs or Pedestal

The Classic Step Top comes in a pedestal model or one of three cast iron leg styles: 24 karat gold plating, brushed nickel or black. Each distinctive look also features an ash drawer that allows for safe and easy disposal of your ashes.

## STANDARD FEATURES

*Outstanding Heat*

# Classic WarmHearth

Z2510

## New Home Applications

Consider building the Regency® WarmHearth into your new home or cottage. Its heat sharing flexibility and central heat option is perfect for new home applications and you can tailor the venting to zone heat the areas where you spend the most time.

## Clean Burning

The WarmHearth has been tested and certified to the strictest clean air standards as set by the Environmental Protection Agency. Your Regency WarmHearth is over 90% cleaner burning than a conventional fireplace. In addition, this airtight unit sends more heat directly into your room instead of up the chimney.

## A Furnace with a View

The WarmHearth is so much more than a wood burning fireplace. While relaxing in front of the roaring fire you can zone heat other rooms or set-up your WarmHearth as a wood burning furnace. As a central heating system, special ducting and blower systems carry the heat from your WarmHearth to other rooms in your home, both above and below the unit, from attic to basement. A second option is to add the Regency Gravity Air Kit to take warm air from the WarmHearth directly to an adjacent room.

## STANDARD FEATURES

- ◆ EPA Certified
- ◆ Heavy-duty steel construction
- ◆ Large fire view
- ◆ Ceramic safety glass
- ◆ Single rod draft control
- ◆ Brick-lined firebox
- ◆ AirWash system

## OPTIONAL FEATURES

*Compact Styling*

# Classic Small Insert

I1100

For that charming fireplace that isn't quite big enough for a standard insert, or for that area in your new house that invites a more compact style of fireplace, look to the Regency® Classic Small Insert. This insert can be installed in both masonry and manufactured fireplaces.

## Small Space, Incredible Heat

Don't let the compact design deceive you – this insert will deliver 55,000 BTU of wonderful warmth to your home. And because it has been specially designed as a high efficiency heater, it is clean burning. That means you won't see smoke coming out of your chimney and all of your wood will be transformed into useful heat. Regency Classic Inserts are ready for installa-

tion and fit easily into your existing masonry or factory built fireplace by attaching a Regency chimney liner.

## Full Fire View

All Regency Classic Wood Inserts feature a large glass door designed for maximum fire viewing. The specially engineered firebox features two separate air sources to feed the flames which results in a lively, roaring fire. Choose the 24 karat gold plated door and you will eliminate the cleaning and polishing required on brass door alternatives. The Regency AirWash System directs air across the glass door which will keep your glass cleaner, longer.

## STANDARD FEATURES

- ◆ EPA Certified
- ◆ Single rod draft control
- ◆ AirWash system
- ◆ Brick-lined firebox

## OPTIONAL FEATURES

- ◆ Cast iron door in 24k gold, black, gold accent or nickel
- ◆ Regular or oversize faceplate
- ◆ Two speed blower
- ◆ Screen door
- ◆ Nickel hinge caps and handles
- ◆ Brass faceplate trim
- ◆ Regency stainless steel flex liner kit

*Uncompromising Quality*

# Classic Medium & Large Inserts

I2400, I3100

## No More Drafty Fireplace

Your open fireplace can allow as much as 90% of your fire's heat to escape out the chimney. By adding a Regency® Classic Fireplace Insert, you will keep the heat where you want it – in your home. Regency Classic Fireplace Inserts are ready for installation and fit easily into your existing fireplace. This simple investment will increase the value of your home and decrease your monthly heating bill.

## More or Less Heat

The simple and reliable all-in-one draft rod allows you to alter the airflow into the firebox so you can enjoy a slow burning fire with less heat or a crackling full fire guaranteed to take the

chill off quickly. Your Regency dealer will help you assess the right model for you. By working with an authorized Regency dealer, you will benefit from a professional who has been fully trained on the Regency product line and understands local codes and requirements so that your wood stove will operate to its optimum.

## Cook Top Convenience

With a large warming shelf, the Regency Classic Insert does double duty as a cook top with enough space to hold a kettle or steamer. Even when the power is out, you can still cook a hot camp style meal and enjoy the heat.

# Options

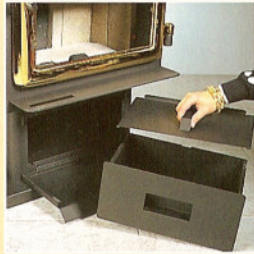

## Convenient Ash Removal System

1. Open door

2. Pull out drawer

3. Slide cover on top

4. Carry away

Leg Ash Drawer

A compact ash drawer system is also featured on the leg version.

## Base Options

24 Karat Gold Plated Cast Iron Legs

Brushed Nickel Cast Iron Legs

Black Cast Iron Legs

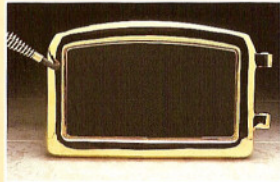

Black Pedestal

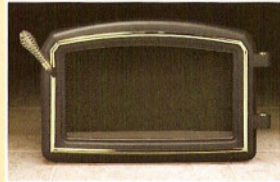

## Cast Iron Doors

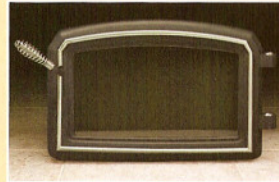

Black Cast Iron Door

Gold Cast Iron Door

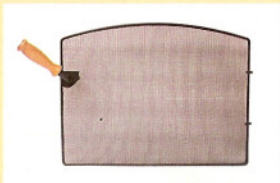

Gold Accent Cast Iron Door

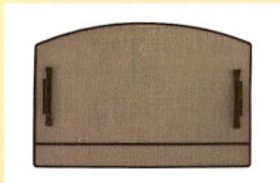

Nickel Accent Cast Iron Door

## Screen Doors

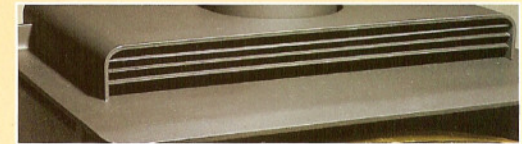

For wood stoves and inserts.

For WarmHearth Plus

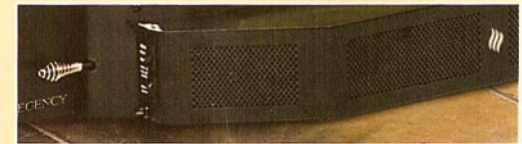

## Convactor airmate

The convactor airmate scoops super heated air from the back and top of the stove and directs it to the living area in front. This heat dispersion reduces temperatures behind the unit and allows it to be installed even closer to the wall.

## Powerful blower

The blower can dramatically increase the circulation of heat in your home. It includes dual speed settings and an automatic heat sensor which turns the blower on and off at predetermined temperatures.

## Powerful blower

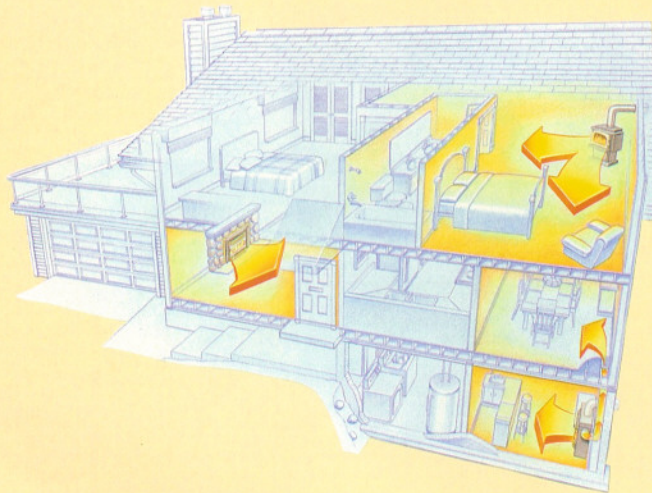

The blower can dramatically increase the circulation of heat in your home. It includes dual speed settings and an automatic heat sensor which turns the blower on and off at predetermined temperatures.

# Home Comfort & the Regency® Quality Difference

## Zone Heating Cuts Your Heating Bills

The best way to combat rising heating bills is to turn the thermostat down and enjoy a warm, crackling fire in the rooms in which you do most of your living. Regency Classic Wood Stoves, Inserts and Fireplaces are high efficiency, sealed systems that draw cold air around the firebox and then, once warmed, direct it back into your room and not out the chimney.

## Payback in Two Years

One load of wood can heat your home all night. Our studies show that you can achieve payback on your Regency in as little as two years through the money saved on heating bills and lower wood costs. In addition to saving you money on your heating bill, your Regency will add to the value of your home. Buying the best really does save you money!

### CLEANER BURNING & BETTER FIRE

**Non-catalytic Technology**  
Regency uses non-catalytic technology which means that the airflow in the firebox is directed in such a way to reburn smoke. This creates greater efficiency, a spectacular fire and results in cleaner emissions.

### GREATER DURABILITY

### HIGH EFFICIENCY HEAT

**Convactor Airmate**  
Pushes heat forward and into the room.

**Firebox**  
Designed to burn wood completely delivering clean burning high efficiency heat.

**Side Shields**  
For better convection and closer clearances.

**Heat Control**  
Simple and easy to control heat output and size of fire.

**Exhaust**

**Heavy Gauge Steel**  
Used throughout the stove for long term durability.

**Stainless Steel Air Tubes**  
Provides cleaner, more complete combustion.

**Heavy Duty Cam Latch**  
Ensures tight seal for controlled airflow.

**Heavy Duty Hinges**  
Ensures tight seal for controlled airflow.

**Ceramic Glass**  
Withstands very high temperatures and allows the heat to radiate through the glass.

**AirWash**  
Keeps the glass clean automatically. To clean carbon deposits off glass, just allow to burn at maximum for 30 minutes.

**Heat Reflective Baffle**  
Withstands very high temperatures and increases efficiency.

**Removable Ash drawer**  
For easy clean up.
