HOT SPOT

Wood Stove Oven

The Hot Spot Wood Stove Oven bakes, roasts and warms meals using the heat from your Pacific Energy wood stove. Enjoy a hot fireside meal, even on stormy nights without power.

Pacific Energy's Hot Spot is easy to install with a quick snap in place. Sturdy stainless-steel construction sustains the heat. The built-in thermometer and top vents permit variable temperature control. Warm larger pots and kettles by lifting the hinged top. Remove the bottom rack for easy cleaning.

An energy-efficient and portable stove top oven, the Hot Spot is perfect for the Pacific Energy wood stove in your home or cabin. The Hot Spot fits most Pacific Energy Super 27, Fusion and Summit wood stoves*.

* The Hot Spot will not fit the Vista, Spectrum or any Classic porcelain enamel wood stoves.
