REPLACE YOUR EXISTING WOODSTOVE

Finally you can have it all! The Heritage Bayvue Freestanding gas stove gives you the convenience, heat and clean burning efficiency of gas in a classically styled woodstove styling. The Heritage Bayvue is ideal for replacing your existing woodstove. By using a 4" aluminum flex liner, this Bayvue can be easily installed into your existing chimney. You don't have a chimney...no problem, install this Bayvue on its own "B" Vent chimney.

FLAME AND HEAT CONTROL

The amount of flame and heat can be easily adjusted for all seasons. With a variable setting from the maximum 33,000 B.T.U. Hr. Natural Gas through a full range to 19,000 B.T.U. Hr., the Heritage Bayvue delivers flexibility and control for maximum efficiency and enjoyment.

REALISTIC WOOD FIRE

Our superbly crafted fiber logs, complete with glowing embers, provide an impressively realistic wood fire effect. The "surround" view of our beautifully designed "Bayvue" door lets you enjoy the fire from anywhere in the room.

EFFICIENCY

Tested in Canada & U.S.A. to the room heater standard.
79% Blower on Steady State Efficiency
64% AFUE (Annual Fuel Utilization Efficiency)
Bedroom & Bed sitting room approved.
Certified to CAN/CGA 1-2.1-M86 and ANSI Z21.11.1-1991

Freestanding Dimensions

Consult your owners manual for complete installation instructions and proper clearance in combustible surfaces. Check all local and national building codes. In the interest of continual product improvement all sizes & designs are subject to change without prior notice. Note: Photographs depict propane units. Flame intensity and glowing logs vary with type of fuel and venting conditions.

ADD COLOUR

Available in high temperature metallic black paint or optional 5 easy clean designer porcelain colours.

Actual enamel colours may vary slightly from brochure
